MONTINI GUERINO

NEW OMRA 2020

CATALOG PRICE LIST 03

Made in Italy

Presentation

The Company was established in Lumezzane in 1972. It was initially a small family business started by the father Guerino. Later on, the three sons Giovanni, Roberto and Giuseppe, each one specializing in their own role, enhance the activity and in 1980 the headquarters are moved to Villa Carcina, where the production is still taking place today.

From the initial manufacturing of stainless steel household articles, the Company moved on to a wider and more complete range of products including cookware for restaurants and hotels.

In 2009 the company Gierre, producing plastic household items, was acquired as well as, one year later, the company Omra, a historical factory specialized in the production of electric and manual devices such as tomato squeezers and meat grinders.

Later on, the manufacturing of the SPREMY and TESTAROSSA tomato squeezers was also acquired

Finally, in 2012, a new branch was opened in Rodengo Saiano.
